Milling & Baking News

MILLING DIRECTORY

The 1990 Milling Directory Buyer's Guide is a continuation of the Directory of Milling, which had its beginnings more than half a century ago and has been published by *Milling & Baking News* since 1973. The Milling Directory provides a comprehensive listing of companies and products in the milling industry, including daily flour milling and storage capacity, railroad service, executives in management and production, and wholesale and retail brands.

Statistical Summaries

6

The statistical summaries detail milling capacity by largest companies, by states and by type of flour for those listings in the directory.

United States

11

Individual mills are listed by city and state. Mills may appear in several sections because of the types of flour produced.

Multiple unit companies	11	Dry corn mills	51
Wheat flour mills	19	Corn refiners	54
Family flour packaging plant	35	Soy flour mills	55
Mix manufacturing plants	41	Buckwheat mills	55
Durum mills	48	Oat mills	56
Bulgur plants	50	Rice mills	58
Rye mills	50	Specialty mills	64

Canada

68

Individual mills are listed by city and province. Mills may appear in several sections because of the types of flour produced.

Multiple unit companies	68	Mix manufacturing plants	73
Wheat flour mills	69	Specialty flour mills	74
Family flour packaging plants	72	Oat mills	74

Central America and Caribbean Flour Mills

76

BUYER'S GUIDE

78

The Buyer's Guide includes a complete listing of products and services for milling and an alphabetical list of companies producing and or supplying these products. The publisher assumes information provided by the companies included in the Buyer's Guide section to be an accurate list of the products and services offered by that company.

Product Profile

121

Highlights of specific products manufactured by or services provided by advertisers in the *Milling Directory* are featured.

Index of Advertisers

124

This Milling Directory/Buyer's Guide is unique in that each listing is verified by the companies listed for accuracy. Every effort has been made to present a publication free of errors and/or omissions. If there are additions, corrections or changes for any listing, attach a copy of the listing and mail it to Directory Manager, *Milling Directory*, Sosland Publishing Co., P.O. Box 29155, Shawnee Mission, Kas. 66201. Single-copy cost of the *Milling Directory* is \$50.

United States Statistical Summaries

Wheat flour milling capacity by states

(Includes soft wheat, whole wheat flour; excludes durum,* rye.)

State	Number of Mills	Active Capacity In Hundredweights	State	Number of Mills	Active Capacity In Hundredweights
Alabama	1	9,000	Nebraska	6	29,170
Arizona	2	9,500	New Jersey	1	12,000
California	10	76,200	New Mexico	1	1,000
Colorado	3	19,000	New York	12	115,500
Delaware	2	472	North Carolina	11	33,110
Florida	3	27,500	North Dakota	1	7,000
Georgia	3	13,100	Ohio	11	69,575
Hawaii	1	2,200	Oklahoma	4	29,500
Illinois	7	66,760	Oregon	3	17,500
Indiana	5	30,400	Pennsylvania	19	42,050
Iowa	2	14,900	South Carolina	2	1,600
Kansas	19	118,440	South Dakota	1	3,000
Kentucky	6	4,025	Tennessee	9	44,600
Louisiana	2	11,500	Texas	7	44,060
Maryland	2	4,000	Utah	9	35,470
Michigan	7	27,600	Virginia	8	17,508
Minnesota	11	117,110	Washington	4	28,800
Missouri	8	75,848	Wisconsin	1	13,500
Montana	4	14,820	Total	208	1,187,318*

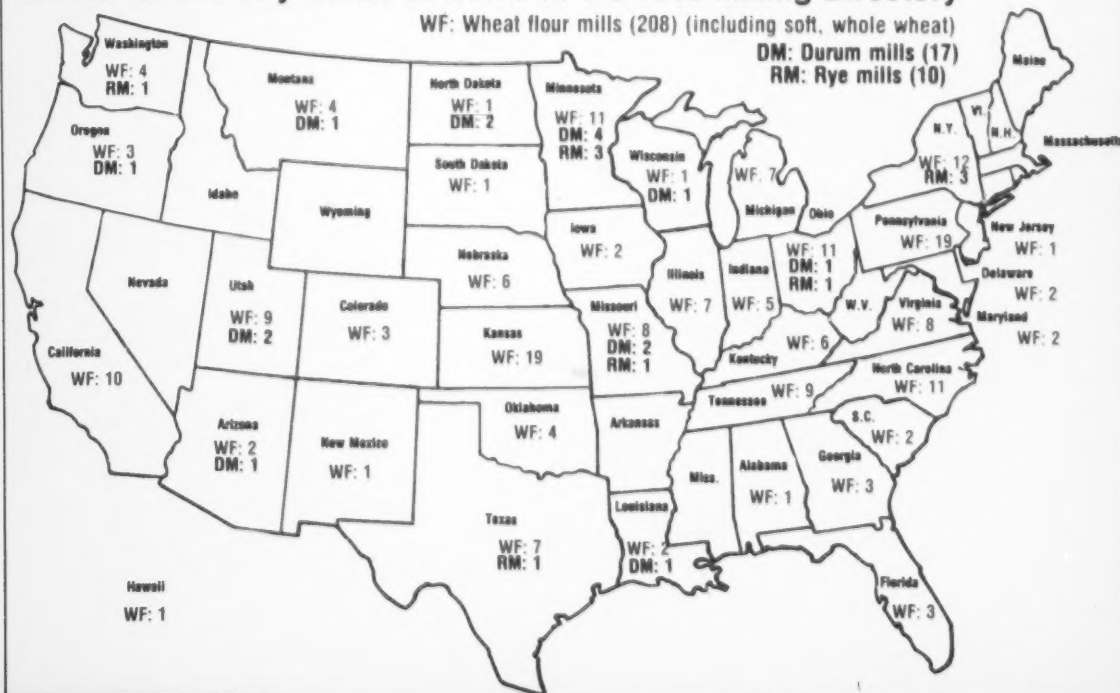

* Total includes approximately 39,000 cwt of durum capacity at various locations.

Number of mills by states as listed in the 1990 Milling Directory

WF: Wheat flour mills (208) (including soft, whole wheat)

DM: Durum mills (17)

RM: Rye mills (10)

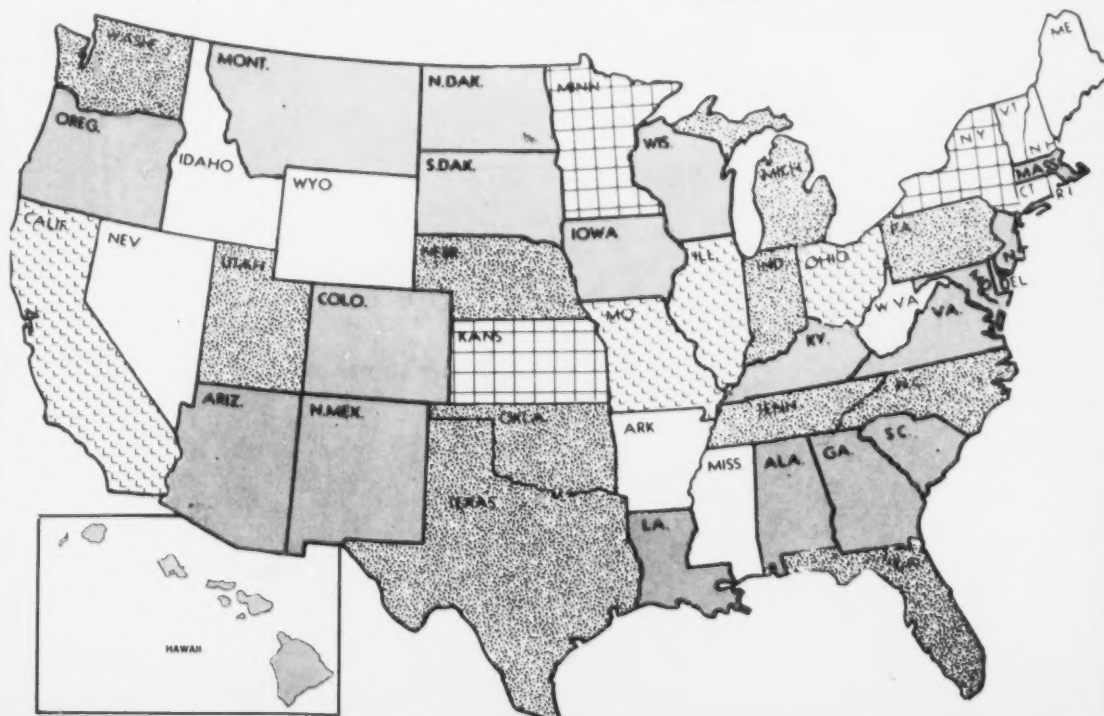

(based on data submitted by individual companies listed below)

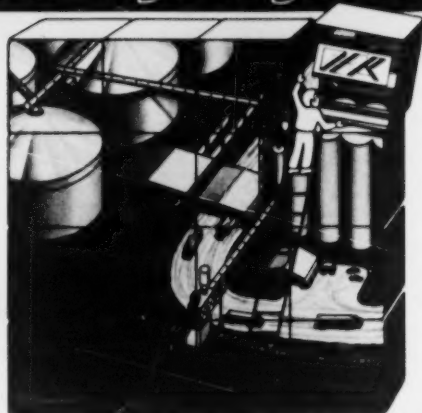

(based on data submitted by individual companies listed below)

*Includes unspecified durum capacity.

(as listed in the 1990 Milling Directory)

Getting it together

takes an engineering consulting firm with a lot of experience.

At DER — Getting It Together — is more than solving today's grain-handling problems — it's careful planning for the future. A diversity of projects from country to terminal elevators has given us a vast amount of knowledge in the grain-handling field. Our geographic location in the agriprocessing belt gives us the unique opportunity of working with many grain-handling companies. Not only do we offer professional engineering services, but also you'll find our expertise in dovetailing the efforts of a contractor and suppliers can make your project both cost-effective and smooth-running.

WANTED

THE AGRICHEM TROUBLE-SHOOTER

PHIL SCHAMBERGER — PRESIDENT

Last seen traveling through Africa, the Orient, South America, the Caribbean... and now the United States. He is bringing with him a wealth of experience.

His specialty is improving your flour quality with optional contracts or direct purchase... the choice is yours. He can also help with that occasional problem of inferior wheat.

AgriChem, Inc. is a leading exporter and supplier of flour additives, including:

AGRIMALT (Fungal Amylase) BROMAG & BROMAG 50
MATURAG (Maturing Agent) (Potassium Bromate 23% - 50%)
VITAG (Vitamin Enrichment) AGRILITE (Bleach)
AGRICOM (Custom Blends)

Our specialty: Upgrading marginal quality flour; helping flour millers produce excellent quality flour utilizing less costly varieties of wheat by adding —

ASCORBIC-E—a specially protected "encapsulated" natural improver, with controlled action for maximum benefit. Gives better volume and texture.

GLUTEN-M—high quality wheat gluten, treated with emulsifiers for improved action in strengthening weak doughs.

GLUTEN-PLUS—a formulated blend of Ascorbic-E with Gluten M. One volumetric feeder supplies just the right proportion of both products.

CONTACT US:

AgriChem, Inc.

755 New York Avenue • Huntington, New York 11743 U.S.A.
Telephone: 516/549-4260 TELEX 22 1678 AGRI UR
Fax: 516/549-4413

Time marches on;
change is stable.
Antilogical logic,
norm for the future.

Strategic vision - form
new quality council.
Elucidate research
funding for labs.

New grading factors;
changed hedging rules.
Is food safety at issue,
salubriousness a fad?

Environmental concerns;
or fata morgana.
Elizabethan returns:
meet ELISA & LISA.

WHAT IT TAKES TO GET IT RIGHT

Responsiveness, flexibility, attention to details, a desire to please—these are qualities that distinguish the star performer from the merely competent.

We produce soft wheat flour—for cakes, cookies, crackers, pretzels, batter and breadings.

Our products, including New Century Hi Ratio Cake Flour, Sun Rise Biscuit Flour and Gold Standard Cookie and Pastry Flour, adhere to a standard of quality that should be every miller's goal.

Our ability to deal quickly and congenially with your most demanding service requirements will make you doubly glad you're doing business with us.

When consistent product and reliable service are important to you, think of us. We know what it takes to keep our customers satisfied...and customers satisfaction is why we're in business.

ROYAL TREATMENT.

One of the most modern grain terminals in the United States, the Corpus Christi Public Elevator has a 5-million bushel capacity on a 45-foot channel. High-capacity railcar and truck unloading and loading is augmented by computerized documentation of customer inventories, by weight, of each grain and grade.

Add our high-speed bagging facilities and our efficient and economical services, such as special palletizing and the availability of total FAS packages, and you'll believe in our commitment to treat shippers and receivers like royalty!

The Port of Corpus Christi . . . in a class by itself!

Choose your grain analyzer from the first family in grain analysis.

The DICKEY-john Motomco® 919® Automatic gives you inspector-accurate performance in an easy-to-use design. The 919 Automatic delivers a digital readout of grain moisture content in less than 30 seconds. Without manual temperature testing or conversion charts.

The DICKEY-john GAC II® is a fully automatic instrument that determines moisture content, grain temperature, and approximate weight per bushel—all three in less than 20 seconds.

The DICKEY-john GAC III® is a near infrared analyzer that provides a quick accurate measurement of the percentage of moisture, protein and other constituents in a variety of grains. The GAC III is available in a range of models to fit your specific needs and budget. Call or write today for information.

You can't always see what's bad.

Can you find the contaminant in this product ...our gravity separator can.

The Oliver accurately separates dry, bulk solids by weight. Our unique rectangular deck and multiple fan system provide you with the tools to make the difficult density separations, like the one above. When your product's quality is at stake, you can't always trust the eye. So before you make any final decisions, find out how an Oliver can benefit you.

Call for a FREE evaluation. (719) 254-7814

WHAT'S IN A NAME?

A lot when the name is KICE.

History

Kice Industries was started more than 40 years ago by an inventive millwright. The company developed the long-cone cyclone collector and the Kice Multi-Aspirator. As new products gained respect, the business grew on hard work and satisfied customers.

Experience

Over the years, Kice Industries has been on the cutting edge of change. We have discovered better ways to build our products, as well as better products to build. Kice equipment is at work 24 hours a day, all over the world. And, Kice service is world famous.

Qualifications and Facilities

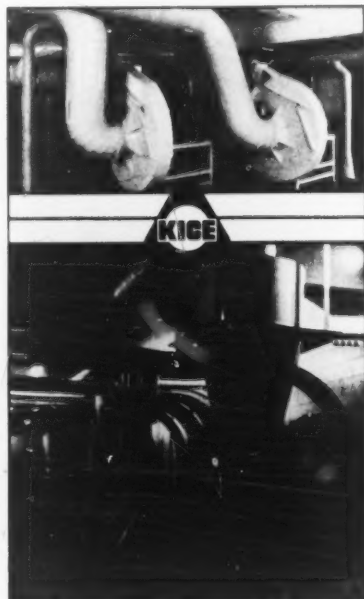

Members of the Kice team all have specialized degrees in milling, engineering or other closely related fields. Working with customers to solve their problems is our Engineering and Design group's top priority. An in-house test lab and specialty equipment allow us to establish a thorough understanding of your product's characteristics. This information is combined with your production goals to design exactly the right system for any requirement.

From the elevator to the mill; from mill through the bakery: Kice is a name you can count on!

Why did all these major
milling companies pick Evergreen
for building and restoration?

Because of Quality,
Service and Price!

The majority of all major flour mill building projects are done by Evergreen Builders Inc.

And, for good reason.

The quality of their work is unquestionable, from start to finish. The service is second-to-none, designed to meet your individual project needs efficiently and on-schedule. And from the beginning, you'll find that the price is very competitive, with a variety of compensation plans to meet your needs.

If there is a building project in your company's future, Quality, Service and Price are three good reasons to give Evergreen Builders a call today.

MAC TOTAL SOLUTIONS FOR PNEUMATIC CONVEYING

CONCEPT and DESIGN

Successful field applications and extensive lab testing experience make us one source specialists. Engineering expertise and customer involvement help our project management team recommend and design cost effective and profitable systems.

MANUFACTURING

We oversee the integration of equipment and controls at our own manufacturing facility in Sabetha, Kansas, applying the benefits of either dilute or dense phase pneumatic conveying to your total solution.

INSTALLATION and START UP

We leave the job site only when system documentation is complete, your staff is trained and mechanical equipment and process control is in full operation.

CONTINUOUS SERVICE

Our experienced field representatives located throughout the country are on call 24 hours a day. And to insure minimum downtime and/or production interruptions, our MAC Service Centers are prepared to provide 24 hour parts replacement service.

a leader in
innovative
bulk loading
system
design

DCL's advanced bulk loading systems are at work throughout the world, solving some of industry's most difficult problems — eliminating dust hazards and increasing loading speeds.

Our exclusive Rhino Hyde® urethane inner stacking cones plus innovative design features make our spout the best alternative.

Our success with repeat customers is the result of DCL designed systems that carefully consider every aspect of loading terminal operation.

For more detailed information, call or write Reinhard Matye, DCL, P.O. Box 125, Charlevoix, Michigan 49720, (616) 547-5600, Fax: 616-547-5832.

DCL

— ANNOUNCING —

We have expanded our quality line of products to include a complete size range of slide gates. Also ask us about aeration conveyor components and systems.

Get high-strength, sift-proof closures on multi-walled paper bags with the DFC-200 double fold closer from Fischbein. Easy automatic operation with minimum maintenance. Double fold closure using hot melt is ideally suited for packaging feed, seed, chemicals, resins, flour and food products.

- Yields square ends for stacked product identification and easy palletizing
- Closes flush-cut kraft paper bags from 5-in. to 26-in. wide
- Variable bagging speed to 60-feet per minute

Fischbein has products for all of your bagging needs, including portable and stationary sewing systems, pinch closing systems, polyethylene heat sealing, conveying and handling accessories. Over 40 years experience, with sales and service distributors world-wide.
